- Time To Kill ! -

Metal/Thrash/Death

Base: Ireland

English Release 2020

Born from the dirt and violent streets of Sao Paulo and later relocated to Dublin Ireland, BreKdowN blasted on to the scene in 1998 playing every kind of show imaginable. They quickly found themselves embraced by every facet of the insanely diverse local music scene from punk to tech death. After recording their titled *Disgrace* 3 song demo, and a live tape called *Live After Thrash*, the label Unsilent Records saw them kickin' ass live on a little gig and decided to release the first BreKdowN full length . "*Time To Kill*" (released Nov, 2007). These 8 tracks proved to become an underground favorite over the next year as BreKdowN appeared compilations from Brazil,USA and Germany and on the great magazines and zines over the world like ROADIE CREW, ROCK BRIGADE, RIDERS RUSH (RUS), HMP (POL)... and slammed the stage along open acts such as VULCANO, TOXIC HOLOCAUST, EXECUTER, ANTHARES, APOCALYPITC RAIDS, CHAOSFEAR, COMANDO NUCLEAR, FARSCAPE, OMEM and many more. Also included a lot of shows as headliners in some fests. "Time To Kill" once again delivers a variety of extreme Metal and a blend of melody, sounding broadly defined like a bastard of DEATH, KREATOR and NWBHM with the factor X that makes BreKdowN so expressive and strong. In 2009 band signed to **Metal Inquisition recs** and blasted Europe with vinyl edition with bonus tracks of Time To Kill : Ten tracks of pure energy, hate and face kicking metal songs that will please Death Metal, Thrash and Heavy Metal fans in the same vein. The production is hard, the songwriting intense. The perfect album to tear down your living room by diving from your lockers!
